CUSTOMER-CENTRIC INNOVATIVE SOLUTIONS

OUTSOURCED MANAGED IT SOLUTIONS

WHY IT IS NEEDED

By outsourcing your company's IT tasks, you can cut down on operating costs and allocate time and resources to more productive matters in-house. Companies outsource IT to have vital computing tasks performed by the most skilled, qualified hands. AITHERAS [uh-THEAR-us] brings a comprehensive array of expertise along with innovative approaches to the world of Managed Services with focused support to small and mid-size firms. We provide you with:

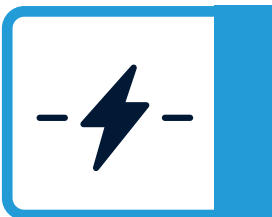

MASSIVE SAVINGS

IT personnel command high pay due to the intricacy and rarity of their skill set. The cost of retaining an IT staff can be prohibitive. With outsourced IT, you can avoid the expense of retaining an in-house IT staff and allocate more money toward expanding the business.

PREDICTABLE BUDGETING

Likewise, the amount of money that could be swallowed up in unforeseen computing problems is a troubling concern. Once you decide to outsource your company's IT, you'll always know what you will be paying month-to-month for maximum IT functionality and security.

FEWER DISRUPTIONS

Disruptions can happen at any time. This can be especially draining if IT staff come and go, and the skills of those who do apply run the gamut. We provide high-quality services and most can be done remotely or overnight.

LESS DOWNTIME

Your systems are monitored 24/7 and we identify and fix issues before they cause problems. When you have AITHERAS working behind the scenes on your side, you virtually eliminate the possibility of downtime or cyber attacks. The problems that could set a company back and damage its reputation, such as long periods of website inoperability or breaches of credit card information, are taken off the table.

MAXIMUM PRODUCTIVITY

When IT responsibilities are outsourced, your in-house staff can focus on the more pressing day-to-day concerns of business. In-house productivity becomes far more efficient and streamlined. Your team can focus on their core strengths and leave IT tasks to qualified, off-site personnel whose own core strengths cover the full range of IT-related issues.

AITHERAS VS TRADITIONAL IT MANAGEMENT

Outsourced Managed IT solutions from AITHERAS gives you the benefit of more reliable performance and more predictable expenses. That means your firm receives more value from the technology you have already invested in, while reducing the total cost of IT problems and the resulting downtime. Let us be your dedicated IT department. Our solutions goes beyond traditional and Industry Standards, our solutions are comprehensive.
